

WESLEY PAULO RIBEIRO

São José dos Campos, SP, Brazil

wesley_paulo00@hotmail.com | linkedin.com/in/wesleypribeiro | github.com/wesleypribeiro

Full Stack Developer | React, Node.js & AWS

PROFESSIONAL SUMMARY

Full Stack Developer with 4+ years of experience building modern, performant, and **scalable web applications** with the **MERN stack** (MongoDB, Express, React, Node.js) and **TypeScript**. Experienced across the entire lifecycle — from responsive **React** user interfaces to **REST APIs** and **AWS serverless** back-ends — with a strong focus on **code quality, automated testing**, and **CI/CD** practices. Comfortable in **Linux/Docker** environments and accustomed to collaborating with cross-functional product, design, and engineering teams.

TECHNICAL SKILLS

Frontend: React, TypeScript, Tailwind, Redux, HTML5, CSS3, Responsive Design.

Build Tools: Vite, Webpack, Next.js, Vercel.

Database: MongoDB (NoSQL), MySQL, PostgreSQL, Prisma.

Other: i18n, GitHub Copilot, Claude Code, LangChain, LangGraph, Agile/Scrum.

Testing: Testing Library, Jest, frontend testing best practices.

Backend: Node.js, Express, REST APIs, Microservices.

Cloud & DevOps: AWS (Lambda, SQS, SES, S3, CloudWatch), Docker, GitHub Actions (CI/CD), GitHub, Git, Linux (Fedora/CLI).

PROFESSIONAL EXPERIENCE

Full Stack Developer

GAP SISTEMAS

Sep 2021 – Jun 2026

- Developed and maintained full-stack web applications end-to-end with the **MERN stack** (MongoDB, Express, React, Node.js) and **TypeScript**, owning features from UI to API to

deployment.

- Built responsive, interactive user interfaces in **React** and **TypeScript**, consuming internal **REST APIs** with proper state, loading, and error handling.
- Designed and deployed **AWS serverless microservices** (Lambda, SQS, SES, S3) with **CloudWatch** monitoring, ensuring scalability and high availability.
- Implemented and maintained **automated tests (Jest, Testing Library)** and **CI/CD pipelines** (GitHub Actions, Docker) to ship changes reliably.
- Modeled and optimized **MongoDB** databases, improving query performance on data-heavy features.
- Refactored and migrated legacy JavaScript modules to **TypeScript**, improving maintainability and reducing runtime errors.

IT Support Intern

Sincomércio São José dos Campos

Jun 2017 – Jan 2018

- Provided technical support to employees and maintained company hardware/software.
- Managed customer service and technical troubleshooting for external clients.
- Maintained systems for partner companies.

Software Developer (Freelance)

CanionTI

Jan 2017 – Mar 2017

- Designed and developed custom web systems based on client requirements.
- Created websites and applications for third-party clients.

EDUCATION

Web Development Full Stack

Trybe

2021

Intensive program (+1,500 hours) focused on software development fundamentals, front-end, back-end, computer science, soft skills, and agile methodologies.

Degree in Analysis and Systems Development

Estácio University

Graduated in 2020

LANGUAGES

- **English:** Intermediate-Advanced
